From the Editor

Compumag 2017 took place in Daejeon, Korea, from 18th to 22nd June and was a well organised and smoothly run event. We are all extremely grateful to Professor Hyun-Kyo Jung (Seoul National University), the General Chair, and Professor Chang-Seop Koh (Chungbuk National University), the Chair of the Technical Program Committee, for creating a very friendly atmosphere and for looking after us so well. A big 'thank you' goes to all the staff involved, especially from Genicom Co., providing the secretarial and organisational support.

The effort continues and the special issue of IEEE Transactions on Magnetics is currently organised, which I am pleased to chair as Editor-in-Chief. All extended papers have now been submitted and the reviewing process has started. The decisions will be completed by the end of October 2017, the special issue is planned for March 2018.

The Board of the Society met during the conference and discussed many important issues, including possible closer links with the IEEE Magnetics Society and involvement in the Intermag conference in 2018.

Following the Board elections last year, new officers have now been elected and it is my great pleasure to announce that Professor David Lowther, McGill University, Montreal, has taken over as the President of the International Compumag Society. I would like therefore to take this opportunity to thank Professor Arnulf Kost, the outgoing President, for many years of dedicated service and for leading the Society from strength to strength. Following these changes Professor Oszkar Biro, Graz University, has taken on the new role as the Vice President for Europe. I would like to wish the new officers all the success with the difficult tasks ahead.

Jan Sykulski

Renewing ICS membership for 2017/2018

If you have not yet done so, please renew your membership for the coming year 2017/2018 by going to the following web page

<https://store.southampton.ac.uk/browse/product.asp?catid=13&modid=1&compid=1>

and completing the 'transaction' on-line. Please note that the membership year runs from 1st August each year. Members attending the Compumag Korea conference and paying full (not discounted, as for non-members) registration fee will have their membership extended automatically.
