

International Compumag Society

Newsletter

Volume 25 No. 1

ISSN 1026-0854

1 March 2018

From the Editor

This year we are having a small anniversary, it was 25 years ago when the International Compumag Society was created. Time flies! As you will have noticed the Newsletter is now into volume 25, amazingly over the years we have had no interruptions or omissions. I wonder how many people have all the issues. Perhaps a cause for some celebration!

As you will see from the announcements 2018 is going to be a busy year with several events including international conferences. CEFC will be held at the end of October in the fascinating city of Hangzhou, China; please read the personal invitation from Shiyou Yang, the chair of the conference. Several other smaller meetings are also taking place, including EMF, SIELA, EPNC, OIPE and IGTE. Moreover, for the first time in the long history of IEEE InterMag, we will have a strong presence organising a special Symposium dedicated to Computational Magnetism. I hope you will be able to attend at least some of the meetings. And make sure you do not forget about Compumag 2019 to take place in Paris in July next year.

On the following pages you will find the usual mixture of reports, announcements, links and other information. By the time this newsletter reaches you the special issue of IEEE Transaction on Magnetics will have been published containing extended versions of the papers originally presented during the last Compumag conference in Korea. I hope you will find this issue very interesting!

Jan Sykulski

Contents:

Invitation to CEFC 2018, Hangzhou, China	1
InterMag 2018, Singapore	1
Compumag 2019, Paris	2
Study on the Effects of Stator Segmentation on the Characteristics of an Electrical Vehicle Traction Drive (technical article)	3
IEEE Nikola Tesla Award 2017	11
IET Science, Measurement, Technology	12
COMPEL	13
ICS Newsletters since 2015	14
New books	15
UK Magnetics Society	15
SIELA 2018, Bourgas, Bulgaria	16
EMF 2018, Darmstadt, Germany	17
IGTE 2018, Graz, Austria	18
OIPE 2018, Hall, Tirol, Austria	19
EPNC 2018, Arras, France	20
Future events	20

CEFC, Hangzhou, China, 28-31 October 2018

Dear Colleagues,

The 18th Biennial IEEE Conference on Electromagnetic Field Computation (CEFC 2018), which is cosponsored by IEEE Magnetics Society, China Electrotechnical Society and Chinese Society for Electrical Engineering, will be held in Hangzhou, China, October 28-31, 2018. The official conference website is used for all conference activities including digest submission and review, registration and accommodation. The website is

<http://www.cefc2018.org>

We invite and welcome you to participate in one of the most important biennial scientific and technical events. Moreover, Hangzhou is the Most Beautiful and Elegant City in China. I believe that you will enjoy a different oriental life by attending CEFC2018.

We are looking forward to meeting you in Hangzhou in October 2018.

Shiyou Yang
General Chair of CEFC2018

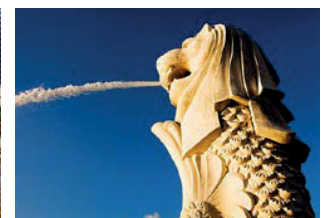

CEFC2018

IEEE International Magnetics Conference (INTERMAG)

INTERMAG 2018 will be held in Marina Bay Sands Convention Center in Singapore from Monday 23rd April until Friday 27th April 2018.

During the conference a special session (a 'symposium') will be offered to the participants under the title "Recent Advances and Future Challenges of Computational Magnetism", where invited members of the International Compumag Society will present the state of the art and expected developments of our discipline. You are cordially invited to join the conference!
