1 July 2018

From the Editor

The IEEE InterMag conference which took place in Singapore late April was a very enjoyable and well attended meeting. From our Society's point of view the most important event was a special session (a 'Symposium') organised to present the work of our community to the regular participants of the conference. It was prepared under the title 'Recent advances and future challenges of Computational Magnetism' and included six half an hour presentations on selected topics. You will find a full report and abstracts on pages 4 to 7 of the Newsletter. I hope this symposium will become a regular feature of future InterMag conferences. As you know our Society has signed a Sister Society Agreement with the IEEE Magnetics Society and we are keen to promote closer collaboration between the two communities.

There are several events scheduled for 2018 and I hope members of ICS will show strong presence at these events. Relevant announcements, links and reminders may be found on the following pages. In particular, the IEEE CEFC conference takes place in Hangzhou, China, towards the end of October and – judging by the number of submitted digests – may be a hugely popular event. Please do not forget to follow the updates on the conference web page.

Finally, it is this time of year again and your membership of the Society needs to be renewed. If you attended Compumag Korea last year and paid a full (non-discounted) registration fee then a two year membership was included. Otherwise please refer to the information on the front page of this Newsletter explaining how a payment can be made.

Jan Sykulski

Contents:

CEFC 2018, Hangzhou, China	1
Compumag 2019, Paris	1
Bill Trowbridge lifetime achievement award	2
InterMag 2018 highlights	3
A Symposium during InterMag	4
EMF 2018 highlights	8
Simulation and analysis of grounding systems using the finite element method (technical article)	9
COMPEL	19
IGTE 2018, Graz, Austria	20
OIPE 2018, Hall, Tirol, Austria	20
Future events	20

Renewing ICS membership for 2018/2019

If you have not yet done so, please renew your membership for the coming year 2018/2019 by going to the following web page

<https://store.southampton.ac.uk/browse/product.asp?catid=13&modid=1&compid=1>

and completing the 'transaction' on-line. Please note that the membership year runs from 1st August each year. Members who attended the Compumag Korea conference and paid full (not discounted) registration fee will have their membership extended automatically.
