

International Compumag Society

Newsletter

Volume 25 No. 3 ISSN 1026-0854 1 November 2018

From the Editor

Welcome to another year of ICS membership. There have been many important meetings this year and our calendar of future events remains as busy as ever. By the time you read this Newsletter the CEFC conference in Hangzhou, China, will have finished. Before that we recently had smaller but extremely well organised and interesting meetings in Hall (Tirol) and Graz, both in Austria, and you can see a few photos from both events in this issue. The focus is now firmly on the forthcoming COMPUMAG conference in Paris to take place in July 2019. Please follow the announcements and consult the web pages to keep up to date with the news.

We now have a new website for the Society! Our small team of experts worked hard on a new design to improve access and enhance functionality. There were a few 'teething problems' but hopefully they have all been sorted out. The address for the new website is <https://www.compumag.org/wp/>

Finally, 2019 will be the elections year for the Society. In accordance with our Constitution and Bye-laws, half of the existing Board members will retire by the end of 2019, although they will be eligible for re-election. A Nominating Committee will prepare a slate of candidates for each Region. All members with up-to-date membership status will be able to vote. We are hoping to organise the voting online as we did in 2016. More details will follow in due course. Newly elected members of the Board will take charge from 2020. The officers will then be elected by the new Board at the first meeting in 2020.

I wish you all a successful year ahead,

Jan Sykulski

Contents:

Compumag 2019, Paris	1
OIPE highlights, Hall in Tyrol, Austria, 2018	2
IGTE highlights, Graz, Austria, 2018	3
Non-conforming finite elements (technical article)	4 9
ISEF 2019, Nancy, France	19
CEM 2019, Edinburgh, UK	20
Future events	20

22nd International Conference on the Computation of Electromagnetic Fields

Important Dates

Submission of digest (2-page): **December 18, 2018**
 Notification of acceptance: **March 1, 2019**
 Early bird registration: **May 1, 2019**
 Final date for paper registration: **June 1, 2019**
 Submission of extended paper (4-page) for
 IEEE TMAG publication: **July 19, 2019**

Venue

Sorbonne University – Campus Pierre and Marie Curie

View from Zamansky tower (Sorbonne University)

Welcome to COMPUMAG 2019

COMPUMAG 2019, the 22nd International Conference on the Computation of Electromagnetic Fields, will be held in Paris, France, from July 15 to 19, 2019. It is co-organized by three French research teams, the GeePs and L2E in Paris and the L2EP in Lille. The conference venue is the Campus Pierre and Marie Curie of Sorbonne University, located in the heart of Paris.

The aim of the COMPUMAG 2019 is to discuss recent developments and practical applications in the numerical computation of electromagnetic fields for engineers and physicists engaged in the design and analysis of electromagnetic devices and systems. Reflecting the new trends and rapid progress in the field of computational electromagnetics, authors worldwide are invited to submit original and previously unpublished contributions. With your valuable contribution and active participation, we believe that you will benefit from the excellent quality of technical presentations, have fruitful discussions, experience pleasant moments by meeting friends and establishing new scientific relationships, and have an enjoyable stay in Paris.

On behalf of the board of International Compumag Society, the organizing committee and the editorial board, we sincerely welcome you to Paris to attend the COMPUMAG 2019.
