## Newsletter

Volume 26 No. 3 ISSN 1026-0854 1 November 2019

### From the Editor

Compumag Paris was a memorable event and our thanks and gratitude go to Professor Zhuoxiang Ren and his team for organising such a splendid conference. I hope the few photographs on page two have captured the spirit of the occasion and will bring back some memories. We slowly turn our attention to Compumag 2021 in Cancun, Mexico. Let me also remind you that in 2023 the conference goes to Kyoto, Japan!

But before that we have many other meetings relevant to our community, the next one will be CEFC 2020 in Pisa, Italy, followed at the end of June by EPNC 2020 in Torino, Italy. There is also OIPE in Szczecin, Poland, in September 2020. So much to look forward next year in terms of conferences!

Congratulations to the successful candidates to join the Board of the Society. This is a very important role and I look forward to active participation and contributions from all elected Board members.

May I recommend to you a very interesting technical article prepared by a group of our friends from Italy on the Partial Element Equivalent Circuit (PEEC) method. We also continue on the theme of introducing various groups around the world; in this issue we have a short description of the activities in GREEN-Lab, a research centre of Université de Lorraine, France, who organised the recent ISEF conference at the end of August.

And last, but not least, a warm welcome to many new members who joined the Society by attending Compumag Paris. The full registration fee at the conference included a two-year membership of the Society so it is my pleasure to bring to your attention the various activities available. Please consult regularly the Society's web page <https://www.compumag.org/wp/> for up-to-date information and news. The Newsletter is published three times a year and you will be receiving a copy, but please make sure that the postal address we have on our database is correct! I will be circulating messages by e-mail on a regular basis.

As our next major conference is CEFC to take place in Pisa, I look forward to meeting many of our members in Italy.

Jan Sykulski

## ICS Board Elections 2019

I am delighted to announce that the following members have been duly elected to serve on the Board of the International Compumag Society:

### The Americas

João Pedro Bastos  
Dennis Giannacopoulos  
Luiz Lebensztajn

### Asia and Oceania

Hajime Igarashi  
Sang-Yong Jung  
Gwan Soo Park  
Shiyong Yang

### Europe and Africa

Herbert De Gersem  
Kay Hameyer  
Ruth V. Sabariego  
Anouar Belahcen  
Jozsef Pavo

In view of the election results and in accordance with Article VI of the Constitution and Article III of the Bye-Laws of the International Compumag Society (see <https://www.compumag.org/wp/organization/constitution/>), the new Board will therefore consist of the following members:

João Pedro Bastos (Brazil), Anouar Belahcen (Finland), Oszkar Biro (Austria), Arturo Bretas (USA), Stéphane Clenet (France), Herbert De Gersem (Germany), Dennis Giannacopoulos (Canada), Kay Hameyer (Germany), Nathan Ida (USA), Hajime Igarashi (Japan), Sang-Yong Jung (Korea), Chang Seop Koh (Korea), Arnulf Kost (Germany, Past President), Luiz Lebensztajn (Brazil), David Lowther (Canada, President), Kazuhiro Muramatsu (Japan), Gwan Soo Park (Korea), Jozsef Pavo (Hungary), Zhuoxiang Ren (France), Maurizio Repetto (Italy), Ruth V. Sabariego (Belgium), Sheppard Salon (USA), Jan Sykulski (UK, Secretary/Treasurer), Bill Trowbridge (UK, Honorary President), Katsumi Yamazaki (Japan), Shiyong Yang (China) and Jiansheng Yuan (China).

According to Articles VII/3 and VII/5 of our Constitution the term for new Board members is six years and will begin on the first day of January in the year following the election (1st January 2020 in this case); however, the existing Officers will remain in their posts until the end of the first new Board meeting, when the election of the new Officers will take place.

I would like to express my thanks all members who participated in the elections as candidates and voters and I wish the new Board every success in pursuing the aims and objectives of the International Compumag Society.
