

International Compumag Society

Newsletter

Volume 27 No. 3 ISSN 1026-0854 1 November 2020

From the Editor

CEFC 2020 will be held in Pisa, Italy, in the latter part of November and it will be a fully virtual event. This will probably be the first opportunity for many of us to experience a virtual conference, though several such meetings in other fields of science and engineering have recently taken place and generally the comments from participants are positive and encouraging. The organising committee is facing a huge task and our words of support go to Sami Barmada and his team with best wishes of a successful conference. Please consult the back cover and relevant web pages for details and up-to-date information.

We are all hoping that Compumag 2021 in Cancun, Mexico, will go ahead as originally planned. The conference website should be visited on a regular basis for announcements and further information. In the meantime, you may register on the ConfTool website and add your paper(s) at a later date. Please follow the links provided on the cover of this Newsletter.

Most members of the Society will have by now renewed their membership, but if you have not yet done this yourself, please follow the link on the front page – remember that the membership year runs from 1st August each year.

Finally, it is my great pleasure to commend to you a very stimulating technical article prepared by our colleagues in Graz and Padova. Another interesting reading is a report from a minisymposium held recently in Graz during the IGTE 2020 Symposium.

I wish you all a successful year ahead in these difficult circumstances and hope to see at least some of you next year.

Jan Sykulski

Contents:

Compumag 2021	1
Images of Kyoto, Japan	2
Challenges in the Synthesis of NFC Transponders (technical article)	3
Quasistatic Electromagnetic Field Problems Including Capacitive, Inductive and Resistive Effects: Applications and Models	15
EPNC, Torino, Italy	19
CEFC 2020, Pisa, Italy	20
Future events	20

Important dates

Two-page submission due: **January 5th, 2021**
 Notification of acceptance: **March 31th, 2021**
 Early bird paper registration due: **April 9th, 2021**
 Paper registration: **April 23th, 2021**

Renewing ICS membership for 2020/2021

If you have not yet done so, please renew your membership for the current year 2020/2021 by going to the following web page

<https://store.southampton.ac.uk/product-catalogue/faculty-of-engineering-and-physical-sciences/school-of-electronics-and-computer-science/international-compumag-society-ics-subscription-renewal>

and completing the 'transaction' on-line. Please note that the membership year runs from 1st of August each year. Members who attended Compumag Paris last year and paid full (non-discounted) fee had their membership extended automatically.
