1 June 2023

From the Editor

Compumag Kyoto was a fantastic event! First time we all had the opportunity to meet face-to-face with our friends and colleagues from around the world since pre-Covid times and it really made a difference to have 'proper' networking. Congratulations and big Thank You go to the organisers, in particular Professor Tetsuji Matsuo, the overall Chair of the conference, for creating such a wonderful atmosphere and for looking after us so well. The Conference Centre was ideal for our type of meeting and everything worked so smoothly that it was easy to forget how much effort goes into the preparations. I hope a small selection of photographs from the event will bring nice memories to the participants. Of course, this is not the end of the conference yet as the publication of the post-conference extended versions is now well under way.

It was also an opportunity to pay tribute to some of our former friends and colleagues who originally initiated the Compumag series of conferences back in 1976 and who are sadly no longer with us. Please read the tribute to them later in the Newsletter.

There are several smaller meetings relevant to our members later this year, in particular ISEF and OIPE in September later this year. In 2024 the IEEE CEFC conference will take place on Jeju Island in Korea; details may be found on the later pages of the Newsletter.

Finally, please remember that the Society membership runs from 1st August each year. If you paid the full conference registration fee for Compumag Kyoto, your membership will be renewed automatically, otherwise please follow the instruction on the front cover.

Jan Sykulski

Contents:

Compumag Kyoto	1
Reminder to renew membership	1
Highlights from Compumag Kyoto	2
Questions in Computational Electromagnetics (technical article)	3
In memoriam	13
IEEE CEFC Korea 2024	15
Invitation to Compumag 2025, Naples	16
Future events	16

Renewing ICS membership for 2023/2024

If you have not yet done so, please renew your membership for the coming year 2023/2024 by going to the following web page

<https://store.southampton.ac.uk/product-catalogue/faculty-of-engineering-and-physical-sciences/school-of-electronics-and-computer-science/international-compumag-society-ics-subscription-renewal>

and completing the 'transaction' on-line. Please note that the membership year runs from 1st August each year. Please note also that if you attended Compumag Kyoto in May 2023 and paid the full (non-discounted) registration fee, then your membership will be renewed automatically. However, the reduced fee did not include the ICS dues.
