## From the Editor

We are entering a rich conference season, with CEM (Bruges), Compumag (Naples), OIPE (Lodz) and ISEF (Baiona) already on the horizon. I look forward to seeing many of you attending the forthcoming events. Obviously Compumag is the main focus for us as members of the Society. You can find information and relevant links to the mentioned events inside this issue of the Newsletter.

May I also remind you that the next Compumag will take place in Cancun, Mexico, in November 2027; please watch this space for further details and updates.

It is also time to make decisions regarding the 2029 edition, which is likely to go to Asia, Australasia or Oceania, to follow our tradition. The invitation to bid may be found on the front page, while all relevant rules and details on page 2. I hope this call for bids will result in strong applications from our colleagues in the relevant regions.

You may be aware that our Society and the IEEE Magnetics Society have a Sister Society Agreement in place. You will find some information about and links to MagSoc on page 14. The ICS Board is currently looking into strengthening the collaboration between the two societies for the benefit of both.

Coming back to Compumag Naples, at the time of writing this editorial the reviewing process of submitted digests was in full swing, and I expect by the time you receive a copy of the Newsletter the acceptance decisions will have been made. As always, authors of the papers presented at the conference will be invited to prepare extended versions to be considered for publication in the IEEE Transactions on Magnetics.

Jan Sykulski

## Invitation to bid for COMPUMAG 2029

In accordance with the conference tradition and Society's Bye-Laws, a formal invitation to bid to organise the COMPUMAG conference in 2029 is hereby issued. Interested groups and institutions are invited to first communicate to the Secretary an intention to submit and then prepare a bid in accordance with Article VII of the Bye-Laws and following the guidelines. Both the extract from the Bye-Laws and the Guidelines are published on page 2 of this newsletter. All bids must be submitted a month before COMPUMAG Naples, that is by 22<sup>nd</sup> May 2025. With the 2025 meeting taking place in Naples in June 2025 and the 2027 event going to Cancun, Mexico, the preferred venue for 2029 would be in Asia, Australasia or Oceania. It is anticipated that the decision about the conference venue, and which group is awarded the organisation, will be made at the conference in Naples.

ICS Secretary
