International Compumag Society Newsletter

Volume 33 No. 3 ISSN 1026-0854 1 November 2026

From the Editor

A warm welcome to all members with another year of ICS activities ahead of us. Our focus is now firmly on the forthcoming edition of our main Compumag conference, which will take place in Cancun, Mexico, in November 2027. Preparations are already in full swing, and you will soon start receiving information, invitation to submit digests and other details. Please login to the conference website regularly for updates.

There will be other meetings worth attending, please consider Intermag, ISEF and OIPE, details of which you will find in this issue.

I would like to encourage you to visit – and do this on a regular basis – the Society's web page https://www.compumag.org/wp/ which was enhanced and updated earlier this year. You will find there all the relevant information related to our activities and plans. Please note, however, that the login password is unique to your membership, but it is different to login credentials required to pay the membership dues online as the two systems are currently independent. As a member you will be able to access all pages (designated as 'protected' or 'restricted') in addition to the material which is 'public'. In particular, you may wish to read (or read again) past technical articles published over the years in the Newsletter. Other items of interest include Society's Constitution and Bye-Laws, names of the current members of the elected ICS Board and Executive Committee, as well as some history. Enjoy the reading!

As you may remember Compumag 2029 will be held in China, whereas the decision regarding the venue in 2031 will be made during the Cancun event.

Jan Sykulski

Contents:

COMPUMAG 2027, Cancun, Mexico	1
Highlights from IGTE Symposium, Graz	2
On a posteriori Error Estimation in Low-Frequency Computational Electromagnetics: Reflections on Historical Foundations, Current Realities, and Data-Driven Needs (technical article)	3
Past ICS Newsletters	14
OIPE 2027	15
Future events	16

November 14-18, 2027. Cancun, Mexico

Compumag 2027

Call for papers

The deadline for submissions is **8th May 2027**

Important dates

Two page digest submission due:	8th May 2027
